SKILLS

JAVA JavaScript

HTML CSS

React Python

C# Unity Linux

MongoDB MySql

WORK EXPERIENCE

Software Test Engineer
Elink Elite LLC

11/2021 - Present   *Dallas, Texas*
Conducting different various communication technologies software testing.

Tasks
- Documented testing results, tracked defects using issue-tracking systems, and provided detailed reports to assist development teams in troubleshooting.
- Performed thorough testing of software applications based on predefined test cases, evaluating functionality, usability, performance, and compatibility.

Software Engineer
Undream Entertainment Studio

06/2016 - 03/2018   *Taipei, Taiwan*
Mobile game development with Unity Engine.

Tasks
- Collaborated closely with artists, designers, and other developers to ensure seamless integration of assets and mechanics within the game scenes.
- Implemented player controls, user interfaces, animations, and audio cues to create a polished and enjoyable gaming journey.

PERSONAL PROJECTS

Gihub Link
- https://github.com/LiJieSu0

Discord Sound Effect Bot
- Employed the powerful Discord.js library to establish Discord bot which allows users to upload sound effects and use commands to play sound effects in the voice channel.

Dining Car Business Web Page
- Implemented a front web page with React JS and CSS to build an order system and user-friendly interface that showcases the menu items.

Dining Car Business Server
- Used Express JS to handle requests from the frontend web site and store and retrieve data from MongoDB.
